"Our third quarter results were once again outstanding. Our revenue grew 27% year-over-year resulting in record revenue of \$41.0 million. This revenue growth was driven primarily by the continued acceleration in our enterprise business, which delivered 43% growth in LTM enterprise subscription revenue and which drives high marginal profitability. Additionally, Five9 was once again named a leader in this year's Gartner Magic Quadrant for Contact Center as a Service, North America, published on October 24th, and we were positioned highest on ability to execute. We see this as further validation of our leadership position in the enterprise market. We believe we are still in the early days of a massive push towards modernization of customer service and contact center technologies. Given our leadership position in this market and the strong momentum in our business, we are again raising 2016 guidance."

Non-GAAP Financial Measures

In addition to disclosing financial measures prepared in accordance with U.S. generally accepted accounting principles (GAAP), this press release and the accompanying tables contain certain non-GAAP financial measures. We calculate adjusted gross profit by adding back the following items to gross profit: depreciation, amortization, and stock-based compensation expenses. We calculate adjusted EBITDA by adding back the following items to net loss: depreciation, amortization, interest expense, income tax expense, stock-based compensation expense, and interest and other, which consists primarily of interest income and foreign exchange gains and losses. We calculate non-GAAP operating income (loss) as operating loss excluding stock-based compensation, amortization of acquisition intangibles and an immaterial one time out of period adjustment for sales taxes. We calculate non-GAAP net loss as net loss excluding stock-based compensation, amortization of acquisition intangibles, extinguishment of debt, amortization of debt discount and issuance costs, and an immaterial one time out of period adjustment for sales taxes. Non-GAAP financial measures do not have any standardized meaning and are therefore unlikely to be comparable to similarly titled measures presented by other companies. Five9 considers these non-GAAP financial measures to be important because they provide useful measures of the

operating performance of the Company, exclusive of unusual events, as well as factors that do not directly affect what we consider to be our core operating performance. The Company's management uses these measures to (i) illustrate underlying trends in the Company's business that could otherwise be masked by the effect of income or expenses that are excluded from non-GAAP measures, and (ii) establish budgets and operational goals for managing the Company's business and evaluating its performance. In addition, investors often use similar measures to evaluate the operating performance of a company. Non-GAAP financial measures are presented only as supplemental information for purposes of understanding the Company's operating results. The non-GAAP financial measures should not be considered a substitute for financial information presented in accordance with GAAP. Please see the reconciliation of non-GAAP financial measures set forth herein and attached to this release.

customized features and functions required by larger organizations, which could delay or prevent sales of our solution to them; (ix) downturns or upturns in new sales will not be immediately reflected in our operating results and may be difficult to discern; (x) third-party telecommunications and internet service providers on which we rely may fail to provide our clients and their customers with reliable telecommunication services and connectivity to our cloud contact center software; (xi) we may be unable to achieve or sustain profitability; (xii) we may be unable to secure additional financing on favorable terms, or at all, to meet our future capital needs; and (xiii) the other risks detailed from time-to-time under the caption "Risk Factors" and elsewhere in our Securities and Exchange Commission filings and reports, including, but not limited to, our most recent quarterly report on Form 10-Q.
